Dear Mr Clough

Thank you for contacting me about the Cyclamax application to build a gasification plant on the site at Dunston.

I share your concerns about the consequences of building a site like this so close to so many homes, schools and businesses.

As a country we are producing far too much waste and it's clear that we need to come up with a sustainable way of disposing of it. But I don't think that the right way to solve this problem is to build an incinerator so close to such a heavily populated area.

I am very concerned about the effect this untested technology could have on the surrounding towns and villages. I have submitted my objections to Derbyshire County Council.

Thank you again for taking the time to write to me about this and please keep in touch.

Best wishes

A handwritten signature in black ink, appearing to read 'Natascha Engel'.
